STAT

P.S. RADM Hunter called me this AM to ask if I would extend his apologies to you for not seeing you off. Both he and his aide were enroute to Judy's and we apparently passed on the road. He said the service was unquestionably the most impressive he's

been to at Whidbey and that the "community" was extremely impressed that you would take that much time away from your responsibilities to come out there. He said he thought the effect on the officers was significant and important, i.e. your display of loyalty to a subordinate. I told him we very much appreciated the hospitality and support - that it was flawless - and I complimented individually Lynn Wagner, Sonny Wong, and Chief Pace (typed your notes)- and thanked him personally for his help.
